

# Production Drilling

Macmahon Underground Mining

Led by experienced and respected specialists in the field, Macmahon enables its clients to import best practice production drilling services for both long and short term contracts. With dedicated operational, technical, maintenance and safety management teams in place, Macmahon has built a strong reputation based on consistent high performance, quality of work, the ability to mobilise quickly and to operate independently.

Macmahon's production drill fleet has a range of capabilities and consistently exceeds client expectations for metres drilled per month. An extremely flexible fleet enable Macmahon to drill anything from narrow vein parallel holes to large diameter stope and service hole drilling, utilising a Sandvik ITH production drill.

All drilling units are fitted with instrumentation to maximise accuracy. Hole diameters measuring from 51mm to 165mm can be drilled as a single pass and holes can be reamed to diameters from 115mm to +/- 445mm.

#### Past and present contracts include:

**Mt Wright (QLD) - Carpentaria Gold**  
(Gold)

**Tritton and Girilambone Mines (NSW) - Straits Resources**  
(Copper)

**Renison Bell Mine (TAS) - Bluestone Mines**  
(Tin)

**Savannah Mine (WA) - Panoramic Resources**  
(Nickel)

**Lanfranchi Mine (WA) - Panoramic Resources**  
(Nickel)

**Cannington Mine (QLD) - BHP Billiton**  
(Base metals)

**Ridgeway Deeps (NSW) - Newcrest**  
(Gold)

**Argyle Mine (WA) - Rio Tinto**  
(Diamonds)

**Eloise (QLD) - FMR Investments**  
(Copper/Gold)

**Plutonic Mine (WA) - Barrick**  
(Gold)

**CSA Mine (NSW) - Cobar Mines**  
(Copper)

**Peak Mine (NSW) - Peak Gold**  
(Gold)

**Ballarat Gold - Castlemaine Goldfields (VIC)**  
(Gold)

**Nifty Copper Mine (WA) - Metals X**  
(Copper)
