

MACMAHON

TAILINGS STORAGE FACILITIES

MACMAHON CIVIL CONSTRUCTION

**MACMAHON IS
AN ASX LISTED
COMPANY
OFFERING
MINING AND
CONSTRUCTION
SERVICES TO
CLIENTS FOR
MORE THAN
55 YEARS.**

A comprehensive range of equipment and experienced staff enable Macmahon to provide civil construction on TSFs, bulk, detailed earthworks, and mine site services delivered to the highest health, safety, cultural, heritage, environmental, and quality standards.

Macmahon uses technically advanced equipment and survey machine controls to ensure we minimise material movement and achieve design tolerances that deliver cost and scheduling efficiencies to our clients.

We have in-depth knowledge to establish and manage tailings dam construction projects, lifts, and extensions. Our extensive mobile plant fleet includes scrapers, dozers, graders, dump trucks, excavators, and other ancillary plant, including water carts, rollers, and pumping equipment.

Current Experience

WARRAWOONA TSF CONSTRUCTION

- Calidus Resources Ltd

Macmahon is carrying out bulk earthworks, site establishment, and tailings storage facility construction.

MT MORGANS TSF EXTENSIONS

- Dacian Gold Ltd

Macmahon is carrying out the second TSF extension at Mt Morgans gold mine.

ARGYLE TSF MANAGEMENT

- Rio Tinto

Macmahon worked at the Argyle Diamond Mine for more than 20 years, managing the TSF.

GS1 AND RS1 TSF LIFT

- BMA

Macmahon worked at Goonyella Riverside, raising the existing tailings dams on site.

SOUTH WALKER CREEK CELL 2 AND 3

- BMC

Macmahon built and raised the Cell 2 and Cell 3 TSF at the South Walker Creek coal mine.

PEAK DOWNS 6 AND 7 SOUTH RAMP TSF

- BMA

Macmahon raised both the 6 and 7 Ramp TSF facilities at the Peak Downs coal mine.

Mt Morgans Gold Project - June 2021
