The Project

Macmahon was awarded a five year, 50:50 JV contract by PT Agincourt Resources.

The joint venture provides a full scope of mining and bulk earthworks related services including drill and blast, mining of waste materials, equipment hire and subcontractor management across three operating areas. Additionally, the contract requires the placement and compaction of material on the tailings storage facility embankments and pioneering works associated with access to new open pit mining areas.

Client: PT Agincourt Resources

Location: Sibolga, Sumatra, Indonesia

Value: \$241 million

Start date: January 2016

End date: January 2021

Scope of work:

- Workshop fitout
